

Syncing Your School Google Account To The Computer You Are Using:

Make sure that the computer you are using is synced with your school Google account.

1. On your computer, open Chrome by clicking on the Google Chrome symbol.
2. At the top right, click your Profile . This could also be the letter of your first name or avatar. If you are using a shared computer, make sure the profile is for your Google school account, If not, exit that account and sign in to your Google school account.

3. Sign in to your [Google Account](#). If you are on a shared computer, check to make sure the profile/avatar/initial is connected to your google account. If you do not remember your password, contact your teacher and ask them to change your password.
4. To sync your account, click on your profile in the top right corner. Then click “turn on sync.”
