Unit Lesson**Objectives**

Exploring Culture: Diffusion of Religion

Explore the spread and diffusion of the major world religions

Examine the ways cultures have appropriated, diffused, and changed religions

Identify cultural conflicts based on religious differences

Exploring Culture: Race, Ethnicity, and Gender

Understand the concept of identity and how identities are constructed

Differentiate between race and ethnicity and explore their roles in defining identity

Differentiate between gender-based systems of lineage and leadership in societies

Topic Test

Analyzing Population

Population Distribution

Identify sources of data used by geographers

Understand methods geographers use to measure and represent population density

Identify and describe the four stages of demographic transition

Interpret and compare demographic data and draw conclusions

Recognizing Population Patterns and Historical Trends

Explore historical trends of population distribution

Examine historical patterns of human migration

Identify global population distribution and reasons why it is concentrated in some areas and not in others

Patterns of Fertility and Mortality

Define the terms fertility and mortality and understand their meanings in terms of demographics

Unit Lesson**Objectives**

Understand the relevance of total fertility rate, mortality rate, and infant mortality rate

Analyze differences in the fertility and mortality rates of low-income versus high-income countries

Topic Test

Population - Growth and Decline

Health Care and Disease

Analyze factors contributing to modern health crises

Define the term endemic as it applies to disease

Identify common endemic diseases

Examine the effects of HIV/AIDS on the population of Botswana

Politics, Policies, and Population

Identify economic, social, and environmental factors contributing to government population policies

Analyze the Swedish government's motivation for promoting population growth

Controlling Population: Eugenics and Genocide

Identify factors contributing to government involvement in population policies and changes

Understand the theory of eugenics and the act of genocide as they relate to Nazi Germany before and during WWII and Rwanda in 1994

Topic Test

Population - Movement

Movement: Migration

Differentiate between forms of human movement, including migration, cyclic movement, and periodic movement

Contrast forced and voluntary migrations

Evaluate reasons for voluntary and domestic migration

Unit Lesson**Objectives**

Examine reasons for historical forced migrations

Immigration: Refugees and Asylees

Analyze trends in the international migration of refugees

Explore examples of migration due to political, economic, social, or environmental reasons

Identify challenges facing refugees, their destination countries, and humanitarian aid organizations

Economics of Migration

Identify recent patterns of human migration for economic purposes

Examine the impact of remittances on migrant workers' home nations

Understand the impact of migrant workers on the economies of their country of employment

Analyze the socioeconomic consequences of migration

Topic Test

Physical Geography of Latin America

Physical Geography of Latin America

Explore the major physical characteristics, climate regions, and ecosystems of Latin America

Identify natural events and disasters that affect Latin America

Explain which natural resources are important to various industries in Latin America and how they create environmental challenges

Analyze the challenges facing the Amazon Rainforest and identify ways people can help

Test

Cultural Geography of Latin America

Cultural Geography of Latin America

Examine significant events and developments in Latin America's history

Discover shared and diverse qualities of cultures in Latin America

Unit Lesson**Objectives**

Analyze the impact of European colonialism on Latin American ethnicity and religion

Test

Topic Test

Test

Physical Geography of Europe

Physical Geography of Europe

Compare and contrast the major physical characteristics, climate regions, and ecosystems of Europe

Identify natural events and disasters in Europe and explain how they affect and change the environment

Analyze the effects of industrialization in Europe and the environmental challenges it has created

Test
