

Options EHS Foundations of Personal Wellness B	Scope and Sequence
Unit Lesson	Objectives
Health Maintenance and Nutrition	
The Digestive and Urinary Systems	
	Describe the functions and structures of the digestive system
	Describe the functions and structures of the urinary system
	Describe proper care of the digestive and urinary systems to avoid disease and problems that can occur in the urinary and digestive systems
Healthy Body Composition	
	Define body composition and describe the importance of body fat
	Describe genetic, physiological, and lifestyle factors that influence body composition
	Identify health-related problems associated with abnormal percentages of body fat
Determining and Controlling Body Composition	
	Describe methods for determining body composition, including Body Mass Index
	Apply the exercise principles to controlling body composition
	Analyze additional strategies for achieving or maintaining a healthy body composition
Diets	
	Differentiate between multiple meanings of diet
	Identify additional harmful diets and weight-loss strategies and their effects on the body
	Describe common dietary restrictions and trends
Body Image and Eating Disorders	
	Discuss the relationship between body image and eating disorders, including the influence of the media on body image
	List the symptoms and health dangers of the most common eating disorders

Optio Welln	ons EHS Foundations of Personal ness B	Scope and Sequence
Unit	Lesson	Objectives
		Develop a methodology for improving body image
	Food and Health	
		Analyze the relationship between nutrition, health, and wellness
		Describe the functions of the six basic nutrients in maintaining health
		Recall common nutrition terminology
	Nutritional Needs	
		Assess nutritional needs based on dietary guidelines and the Food Guide Pyramid
		Formulate healthy meal plans and snacks as part of a balanced diet
		Describe how nutritional needs change throughout the lifespan
	Unit Test	
Adole	escent Development, Infections, and	d Diseases
	The Endocrine and Reproductive Systems	
		Describe the functions and structures of the endocrine system
		Identify the names and functions of the parts of the female reproductive system
		Identify the names and functions of the parts of the male reproductive system
	Adolescence	
		Compare the physical changes that occur in boys and girls during adolescence
		Describe the mental and emotional changes that occur during adolescence
		Describe social changes experienced during adolescence
	Pregnancy	
		Summarize how human life begins from conception through the stages of development

Options EHS Foundations of Personal Wellness B	Scope and Sequence
Unit Lesson	Objectives
	Explain the importance of proper prenatal care and nutrition during pregnancy
	Describe the stages of labor
Abstinence and Contraceptives	
	Evaluate commonly used contraceptive methods, including abstinence, for effectiveness in preventing pregnance
	List the advantages of abstinence, including social and emotional benefits
	Discuss refusal skills and avoidance techniques for avoiding sexual activity
Risks of Sexually Transmitted Infections	
	Describe the prevalence of sexually transmitted infections and identify why teenagers are particularly at risk for being infected

	Examine the responsibilities of people who think they may be infected with an STI
Common Sexually Transmitted Infections	
	Describe the transmission, symptoms, and treatment for common STIs
	List examples of ways in which STIs can damage a person's health, including the effects on a fetus
	Examine public health policies and practices regarding the prevention and treatment of STIs
Defining Communicable Diseases	
	Identify the types of pathogens that cause communicable diseases
	Describe ways in which communicable diseases are spread
	Name common treatments for communicable diseases
Preventing Communicable Diseases	
	Examine the ways the body protects itself against invading pathogens

ptions EHS Fou /ellness B	ındations of Personal	Scope and Sequence
nit Lesson		Objectives
		List ways to care for the immune system and prevent the spread of diseases
		Identify community resources available to help treat and prevent the spread of communicable diseases
Common C	ommunicable Diseases	
		Explain the causes, transmission, and treatment of common bacterial and viral diseases
		Explain the causes, transmission, and treatment of common fungal, protozoan, and parasitic diseases
		Determine how medical technology has affected the health status of the world
Cancer		
		Describe the causes and types of cancer
		Explain methods for treating cancer and recognize the importance of early detection
		Identify behaviors that put an individual at risk for developing cancer
Disabilities		
		Define disability and describe mental and physical disabilities
		Examine the challenges individuals with disabilities face
		Describe laws and policies designed to accommodate individuals with disabilities
Unit Test		
lental Health, St	ress, and Relationships	
Evaluating Health	Mental and Emotional	
		Identify characteristics of good mental and emotional health
		Describe how mental and emotional health fit into the stages of Maslow's hierarchy of needs
		Explain how personality influences a person's overall mental and emotional health
Mental Hea	Ith Disorders	

Options EHS Foundations of Personal Wellness B	Scope and Sequence
Unit Lesson	Objectives
	Name various types of mental health disorders
	Summarize the causes of mental health disorders
	Identify types of treatment and resources available for mental health disorders
Anxiety, Depression, and Suicide	
	Identify strategies for coping with the symptoms of anxiety
	Identify strategies for coping with the symptoms of depression
	List the warning signs of suicide and determine strategies for preventing suicide
Stress and Health	
	Explain common sources of stress
	Describe how people react to stress physically, emotionally, and behaviorally
	Recognize the relationship between stress and disease
Coping with Stress	
	Develop healthy behaviors that help reduce stress
	Describe positive and negative strategies for coping with stress
Healthy Friendships	
	Recognize different types of peer relationships and their effects on health
	List strategies for forming, building and strengthening healthy friendships
	Discuss resolutions for common difficulties that affect friendships
Family Relationships	
	Describe the importance of families and strategies for having health family relationships
	Examine how changes and challenges in the family impact health and wellness
	Develop strategies for preventing, avoiding, and treating abuse and violence within the family

Options EHS Foundations of Personal Wellness B	Scope and Sequence
Unit Lesson	Objectives
Responding to Violence and Abuse	
	Identify strategies for remaining safe at home and in the community
	Identify the causes and influences of various types of violence
	Describe how sources of conflict, violence, and abuse can be minimized
Unit Test	
Tobacco, Alcohol, and Drugs	
Using Tobacco	
	Describe the harmful substances in tobacco and tobacco smoke
	Identify factors that contribute to tobacco use
	Summarize the effects of tobacco use on family, finances and society
Dangers of Tobacco	
	Summarize the short-term and long-term health risks associated with tobacco use
	Describe the harmful effects of secondhand smoke, and the effects of tobacco on fetuses, infants and young children
	Examine laws, policies, and practices that help prevent tobacco-related disease
Using Alcohol	
	Define alcohol and identify serving size and legal amounts
	Identify factors that influence decisions about alcohol use
	Examine the negative consequences of alcohol use
Alcohol and the Body	
	Describe the short-term and long-term effects of alcohol use on the body
	Describe the harmful effects of alcohol on a developing fetus

Options EHS Foundations of Personal Wellness B	Scope and Sequence
Unit Lesson	Objectives
	Describe alcoholism and its harmful affects on families and society
Drugs as Medicine	
	Describe the role of medicine in health promotion, disease prevention, and possible complications that may arise from taking them
	Differentiate between prescription and over-the-counter medicines
	List laws, policies, and practices that relate to the safe use of medicine
Illegal Drugs	
	Differentiate between legal and illegal drugs
	Describe why and how illegal drugs are abused
	Identify commonly abused illegal drugs and their effects
Drug Use Risks	
	Describe drug abuse and examine the health risks and consequences involved in using drugs
	Describe how drug abuse affects the decision making process
	Identify the ways that drug use and abuse negatively affect families, friends, communities, and society
