

VOLUNTEER/VISITOR PROTOCOLS

As of March 11th, the FRSD does not permit volunteers or visitors, vaccinated or not at any time. The rapidly changing requirements, combined with a substantial decrease in spread and an increase in community immunity, has us beginning a staggered approach to a return to a more normal school “visitor/volunteer experience.” These changes will take place slowly over the next couple months, taking into account current conditions. As decisions are made, they will be added to this document, and shared here. The first change is identified below. We hope to announce future updates and changes in the coming weeks.

- **Beginning Monday, March 14th:** Any parent will be permitted as a visitor on campus both prior to, and after, the school contact day, regardless of vaccination status. Examples: A parent may walk their 2nd grader to class before school or a parent may meet with a teacher after school.
- Further updates **regarding volunteering:** Coming soon.
